Risk			Impact		Mitigation / What to do	Outcome
ID	Date Raised	Description	Probs	Severity	Plan	Status
1	22/01/21	Cause: Covid-19 sickness Impact: Unable to complete tasks efficiently and accurately which will reduce the progress of the project and could possibly result in completing the project.	3	5	<ul style="list-style-type: none"> Adhere to covid rules. Only go out for essentials If it does occur, speak to a trainer and explain the situation. 	
2	22/01/21	Cause: Missing deadlines set within sprints Impact: Delays the project and adds pressure to work during uncontracted hours. Furthermore it could reduce the quality of the project as tasks will be done in a rush.	4	3	<ul style="list-style-type: none"> Keep track of tasks. Reorganise schedule. 	
3	22/01/21	Cause: wrongfully estimating effort for tasks Impact: Delay the project by taking longer to do a task which was initially listed as low effort.	5	2	<ul style="list-style-type: none"> Set realistic effort to user stories. Even Though it is hard to estimate, be quick to notice if a task requires more time and realign the schuele. 	
4	22/01/21	Cause: not knowing the technologies Impact: it will take longer to learn the technology which means it will delay the project and could hinder the quality of the project.	4	4	<ul style="list-style-type: none"> If you don't know the technology, ask plenty of questions to get confident in using it. Practice on examples. Don't apply it in the project if you don't know it, instead learn it. 	

5	22/01/21	Cause: Configured the database wrong.. Impact: won't be able to host my application or have a functional back end.	2	3	<ul style="list-style-type: none"> Configure it correctly and test it, before starting the project. 	
6	22/01/21	Cause: Laptop stops working. Impact: may stop the project until after christmas.	2	5	<ul style="list-style-type: none"> Speak to the trainer. Try to borrow a laptop and set up all the required softwares. 	
7	22/01/21	Cause: program fails and doesn't compile. Impact: slows down progress of the project.	4	1	<ul style="list-style-type: none"> Delete the class and restart it. Research the error on google. Check the customer starter classes that have already been made and compare your code. 	
8	26/01/21	Cause: Jira: creating new branches for each user story. Impact: not following standard protocol.	1	1	<ul style="list-style-type: none"> Reconfigured the branches and used smart commits to link jira issues. 	
9	26/01/21	Cause: Undo git pull. Impact: caused git conflicts.	5	5	<ul style="list-style-type: none"> Complete the git reset command. 	
10	29/01/21	Cause: Can't get selenium to work with chosen elements. Impact: Hinders completion of tests.	2	2	<ul style="list-style-type: none"> Use a selenium web tool to retrace steps and see which elements were selected.
