			<p>As a user, I should be given a form to fill out when creating a dog and shelter, So that it is easy to fill out.</p> <p>CREATE</p> <p> HWAP-45 ✓ ↗ 2</p>

CI PIPELINE

My Consultant Journey

- Jira
- SpringBoot
- JAVA
- Maven
- JUnit
- Mockito
- Selenium
- GitHub
- JavaScript
- HTML/CSS
- Bootstrap
-

The background features a dark purple gradient with three large, semi-transparent overlapping circles. One circle is light blue at the top and magenta at the bottom. Another is magenta at the top and light blue at the bottom. A third circle is located in the bottom left corner, partially cut off by the frame. The word "TESTING" is centered in white, bold, sans-serif capital letters.

TESTING

COVERAGE

java (30 Jan 2021 21:50:41)				
Element	Coverage	Covered Instructions	Missed Instructions	Total Instructions
✗ HWA-Project	91.1 %	2,940	288	3,228
> src/main/java	80.4 %	1,185	288	1,473
> src/test/java	100.0 %	1,755	0	1,755

80.4%

Coverage achieved in
src/main/java folder.

33/33

Test successfully passed with
no errors and failures.

USER STORY 1

As a user, I want to create a new dog, So that I can share the latest dog up for adoption.

DEMO

USER STORY 2

As a user, I would like to update the details of the shelter, So that they are always concurrent with ones on their website.

USER STORY 3

As a user, when a shelter is deleted, all dogs should be deleted from that shelter.

SPRINT REVIEW

Completed:

- Minimum viable product: CRUD functionality on Dogs & Shelters
- Functional H2 DB hosted, fully integrated backend and front end.

Uncompleted

- Can still insert empty Strings in forms.
- Redesign of output of the read all pages.
- Allow the user to select an existing shelter rather than input id.
- Allow a user to select a shelter or dog for read all to further delve into extra details like pictures and description.
- SQL errors replaced with user friendly alerts.

SPRINT RETROSPECTIVE

What went well?

- Successful project Tracking
- Completed project in timely manner
- User Stories were accurate
- Acceptance criteria met with Selenium testing
- Smart Commits with Jira issues

How to improve?

- Contingencies should be in place to deal with delays
- Repetitive user stories should be removed
- Configure jira when a smart commit is made to move the task to done.

" IT MAY BE THAT OUR COSMIC
CURIOSITY IS GENERALLY-ENCODED
FORCE THAT WE ILLUMINATE WHEN
WE LOOK UP AND WONDER. "

-Neil deGrasse Tyson

The background features a dark purple gradient with three semi-transparent circles. One large circle is centered in the middle, transitioning from blue at the top to red at the bottom. Two smaller circles are positioned in the upper right and lower left corners, also with a blue-to-red gradient.
